HISTORY, MISSIONS AND VISIONS

The company Food, Transport, Logistic & Construction SARLU was created in the year 2024. The first activities of the company were logistics and consultancy. Then, the company launched into public works activities, in construction and the purchase and rental of heavy machinery.

The missions of the company Food, Transport, Logistic & Construction SARLU is to provide customers with a quality and satisfactory service. For our construction of public works, we use good building materials for buildings and we give a guarantee to customers. For our rental of construction machinery, we have tractors, compactors, bulldozers of good quality and good manufacture.

Our vision is to reach the Food, Transport, Logistic & Construction SARLU business in several provinces of the DRC by 2030 and to expand activities in other areas of logistics.

PRODUCTS AND SERVICES

The products and services that we make available to customers are:

Public works, in all types of construction, supply of construction equipment, purchase and rental of heavy machinery for public works, logistics, transport and consultancy, supply of all forms of non-prohibited goods and services for the benefit of customers, design office for all areas of business, audit, interim and human resources.

OUR ACHIEVEMENTS

Here are some examples of our achievements:

❖ Construction

The construction of 3 hangars in Goma, Bukavu and Kisangani on behalf of the Congolese government.

❖ Rental of heavy machinery for the execution of public works

We have the tools, heavy machinery that we allocate to private companies in Goma and Bukavu for road construction. We have 140 cm and 1.80 cm tandem roller compactors, graders, backhoe loaders as well as dump trucks.

❖ Provision of goods and services

In Goma as in Bukavu, we provide home delivery of food and non-food goods, maintenance services of all kinds, technical and IT work.

❖ Logistics and transport

We have a fleet of all-terrain vehicles that can go to areas with difficult access, trucks for transporting goods of all kinds.
